

EDUCATION

- **International Max Planck Research School for Intelligent Systems** Tübingen, Germany
 - *PhD in Computer Science* *May 2021 -*
 - PhD student in the EML group at the University of Tübingen working with Prof. Zeynep Akata and Prof. Andreas Geiger.
 - **PhD Topic:** Learning explainable policies for self-driving cars from little data.
- **The University of Edinburgh** Edinburgh, Scotland
 - *MSc in Artificial Intelligence; Distinction (Overall 76%)* *Sept. 2019 - Aug. 2020*
 - **MSc thesis:** "What Neural Networks can not learn?". **Supervisor:** Amos Storkey. Grade - 77% (Distinction)
 - **Relevant Courses:** Accelerated Natural Language Processing; Algorithmic Game Theory and Applications; Machine Learning and Pattern Recognition; Machine Learning Practical; Natural Language Understanding, Generation and Machine Translation; Reinforcement Learning.
- **Politehnica University of Timisoara** Timisoara, Romania
 - *BSc in Computers and Information Technology; Top 3% (Overall 9.70/10)* *Oct. 2015 - June 2019*
 - **Bachelor Thesis:** "HybridAlpha-Reinforcement Learning on Resource-Constrained Systems". **Supervisor:** Calin-Adrian Popa. Grade - 10/10
 - **Relevant Courses:** Data Structures and Algorithms; Object Oriented Design; Foundations Of Software Engineering; Linear Algebra, Probabilities and Statistics; Computer Security; Operating systems; Bases of Artificial Intelligence

EXPERIENCE

- **Everseen** Timisoara, Romania
 - *Machine Learning Researcher* *Nov 2020 - Apr 2021*
 - Researched and developed better tracking systems for our projects using state-of-the-art deep learning techniques. This led to me contributing to writing and developing a patent that will be published in the future.
 - Researched ways of applying state-of-the-art self-supervised depth estimation methods to our projects.
 - Developed entire data pipelines for training our systems.
 - Researched ways of using re-id systems in the context of image/video retrieval.
 - **Technologies:** Python, PyTorch, NumPy, Matplotlib, Shell Script.
- **Presslabs** Timisoara, Romania
 - *Junior Software Engineer* *July 2018 - Sept. 2018*
 - Worked on an **open source project** which aims to create a MySQL operator on Kubernetes.
 - Implemented new functionalities related to the behaviour of the MySQL cluster, tested them and also fixed bugs.
 - **Technologies:** Go, Kubernetes.
- **3Pillar Global** Timisoara, Romania
 - *Junior Software Engineer* *June 2017- Sept. 2017*
 - Refactored essential parts of the software according to the newest standards.
 - **Technologies:** TypeScript, React, Redux.
- **"DSPLabs" research group at Politehnica University of Timisoara** Timisoara, Romania
 - *Undergraduate Research Assistant* *Feb. 2017 - June 2018*
 - **Implementation of FENP real-time scheduling algorithm in Litmus:** I was selected to develop an interface for the FENP algorithm, developed by "DSPLabs Timisoara". My work was used in a tutorial on **Litmus-RT page**.
 - **Technologies:** Shell script, C, Linux.

SELECTED PROJECTS

- **"SPark - Community-Driven Smart Parking"**: is a community-driven mobile application that tries to deal with the lack of available parking places in a big city. **Technologies: Java EE, Rest Api, Android, Oracle Database.**
- **"SafeStreet"**: is a project that detects violence in videos by using a drone and a neural network. **Technologies: Python, Keras, Shell script, OpenCV, NumPy.**
- **"Wave"**: is a project that reduces the physical interaction between a driver and the mobile phone by using the mobile phone's camera to detect hand gestures using neural networks. **Technologies: Python, Android, PyTorch, NumPy.**
- **"HybridAlpha"**: is an hybrid based on AlphaGo Zero and AlphaZero and it improves the performance of AlphaZero on resource constrained systems. **Technologies: Python, TensorFlow, NumPy.**
- **"Music Prediction"**: is a neural network system that predicts the popularity of a song considering the metadata, the lyrics and the melody of a song. **Technologies: Python, PyTorch, Spotify API, Genius API, NumPy, Pandas.**
- **"What Neural Networks can not learn?"**: is a project that investigates what current CNNs can not learn by studying them from multiple perspectives. **Technologies: Python, PyTorch, NumPy, Matplotlib.**

ADDITIONAL COURSES, WORKSHOPS AND SUMMER SCHOOLS

- **Bitdefender**: I was selected among top 20 students from over 200 applications to attend Cybersecurity courses at Bitdefender. **Technologies: Ida Pro, Shell script and Android.**
- **Microsoft Timisoara**: I was selected among top 20 students from over 300 applications to attend a Software development course by Microsoft Timisoara. **Technologies: C#.**
- **Eastern European Machine Learning Summer School (EEML)**: I was accepted to attend EEML, organised mainly by Google DeepMind in 2019 (admission rate 21%), being among the only 10 undergrads selected from 160 students. EEML focused entirely on Deep Learning and Reinforcement Learning.

SELECTED ACHIEVEMENTS AND AWARDS

- **IMPRS-IS Scholarship**: awarded in 2021 to the top 57 students out of 968 applications for a fully-funded PhD program at IMPRS-IS.
- **1st Prize**: in the Kaggle competition "EEML 2019 - Electricity prediction" which was part of the event "AI for Social Good" organised by EEML.
- **Best Smart Mobility Project**: awarded at UniHack in 2019 for the project entitled "Wave".
- **Honour Student**: awarded in 2018 by Association "Orizonturi Universitare" in partnership with the Romanian Academy of Sciences and Timisoara City Council for outstanding achievements in my professional activity. This distinction is given to the best student from the whole faculty every year.
- **Grand Prize**: awarded at HackTM Sibiu edition in 2018, for the project named "SafeStreet".
- **Second place**: awarded at national competition "Java competition for universities" in 2018 organized by Oracle Academy for the project named "SPark - Community-Driven Smart Parking". This project appeared on multiple news websites.
- **Performance Scholarships**: awarded in 2015-2019 by Politehnica University of Timisoara and **Special Scholarship** awarded in 2018 for obtaining extraordinary results at national contests.
- **Honors Diploma**: awarded in 2015 by Sebis Town Hall for increasing the prestige of the high school and town by the results obtained in Informatics/Mathematics competitions.
- **International Contest of Mathematics and Informatics "Caius Iacob"**: **Programming Section: "Second place"** in the VI Edition and **"Mention"** in the VII Edition. **Mathematics Section: "Second Place"** in VII Edition.
- **Informatics Olympiad county phase**: **"Mention"** in 2014 and **"Second place"** in 2015.
- **Third place**: National Contest "Mathematics-Science and universal language" V Edition, Mathematics Section, 2014.

POSTER PRESENTATIONS AND TALKS

- **Bachelor thesis**: I was selected to present my undergraduate thesis HybridAlpha as a poster at **"EEML Summer School"** and **"3rd Conference on Recent Advances in Artificial Intelligence (RAAI 2019)"**
- **IMPRS-IS symposium, Tübingen 2021**: Title of the talk: "From explainability and interpretability to 3D computer vision and efficient learning: increasing the performance of autonomous agents" (acceptance rate 14%).
